

Requested flow meter type

- FMC nutating disc type FMO oval rotor type

Liquid data

Description _____ Chemical formula _____
Concentration _____ % Specific gravity _____ g/cm³
Viscosity _____ mPas/cP at _____ °C Operating temperature _____ °C

Operating data

Flow rate _____ l/min / l/h Operating pressure _____ bar
Use in hazardous area Yes No

Operating mode

- Normal mode (display of quantity per operation, total quantity, instantaneous flow rate per min/h)
 Automatic mode (volume preset)
in conjunction with an interface amplifier in version: integral mounting onto liquid meter external mounting explosion-proof
Length of connecting cable between liquid meter and interface amplifier:
 5 m 10 m 15 m

Use of flow meter

Portable use with FLUX pump type _____
Fixed installation into pipework DN _____

External digital display unit

- Distance between flow meter and external digital display unit max. 15 m
 Mounting onto quick action tap
 Wall mounting
 Mounting into a switchboard
 Display unit for Type FMO 1 and FMO 2, with 5 m connecting cable and plug
